

ANIRBAN KARMAKAR

Senior Software Engineer

Durgapur, West Bengal, India | +91 7047887463 | karmakaranirban13@gmail.com

PROFILE

Senior Salesforce Developer with 4+ years of IT experience building scalable, component-based solutions using Apex, Lightning Web Components (LWC), alongside REST API integrations. Skilled in event-driven programming, debugging and troubleshooting complex software issues, and writing clean, maintainable code following best practices. Experienced in Agile delivery, version control and collaborative development workflows (Git/GitHub, CI/CD), code governance, sprint planning, UAT management, and mentoring junior developers. Proven track record leading live cutovers, driving client-facing technical solutioning, and integrating Salesforce with external systems and APIs.

CORE SKILLS

Salesforce: Apex, Flow, Triggers, Lightning Web Components (LWC) and Lifecycle, Event-Driven Programming, Salesforce Architecture, Sharing Rules, Experience Builder / Experience Cloud, Asynchronous Apex

Programming: Apex, Java, JavaScript, OOPS.

Web & Integration: REST APIs, Third-Party System Integrations, Integration Techniques with External Systems, LWC Framework.

Engineering Practices: Debugging & Troubleshooting Complex Software Issues, Clean & Maintainable Code, Best Practices, Code Reviews

Tools & Practices: Git/GitHub, Version Control, Collaborative Development Workflows, CI/CD, UAT Management, Database Management

Domain: P2P Lending Products (Q2 Lending Products)

PROFESSIONAL EXPERIENCE

Senior Software Engineer — Cloudkaptan Consultancy Services Pvt. Ltd. 07/2024 – Present

Kolkata, India

- Developed Apex classes, triggers, and Lightning Web Components (LWC) for customer-facing modules, applying component-based architecture and event-driven programming patterns.
- Designed and implemented REST API integrations connecting Salesforce with on-premise systems and third-party tools, applying integration techniques for external systems and APIs.
- Debugged and troubleshoot software issues across sprints, root-causing defects and driving fixes through UAT.
- Mentored junior developers, delivering training on Salesforce best practices, clean coding standards, and SFDX workflows.
- Managed version control, code reviews, and branching strategy using Git/GitHub within CI/CD pipelines, maintaining clean, maintainable, and efficient code.
- Partnered directly with clients to gather requirements, propose technical solutions, and demo sprint deliverables.

Software Engineer — Cloudkaptan Consultancy Services Pvt. Ltd. 07/2022 – 06/2024

Kolkata, India

- Built and maintained Apex classes, triggers, and LWC components supporting core platform features.
- Contributed to REST API-based integrations between Salesforce and external systems, applying integration best practices.
- Debugged component-level and integration issues, collaborating with senior engineers to troubleshoot and resolve complex software issues.
- Collaborated with senior engineers to translate business requirements into technical implementations.

KEY PROJECTS

P2P Lending Platform — End-to-End Personal Loan System 08/2022 – Present

Technologies: Salesforce LWC, Apex, Salesforce Declarative Tools, REST APIs, Git, CI/CD

- Contributed to architecting and developing a fully digital peer-to-peer (P2P) personal lending platform, using component-based architecture to enable users to check loan rates, complete applications online, and receive funding securely without collateral.

EDUCATION

Master of Computer Application (MCA): Dr. B. C. Roy Engineering College | 2020 – 2022 | CGPA: 9.74

Bachelor of Science (H), Computer Science: Michael Madhusudan Memorial College | 2017 – 2020 | CGPA: 8.14

Higher Secondary (WBCHSE Board): Durgapur Taraknath High School | 2015 – 2017 | 79.8%

Secondary (Madhyamik — WBBSE Board): Durgapur Project Township Boys' High School | 2014 – 2015 | 79%

Total: 17 years full-time education (10 + 2 + 3 + 2 years, with MCA).

CERTIFICATIONS & COURSES

- Salesforce Certified Platform Administrator
- Salesforce Certified Experience Cloud Consultant
- Salesforce Certified Platform Developer I - In Progress
- Salesforce LWC Superbadges — Trailhead, Salesforce : Earned Trailhead superbadges for completion of LWC training modules.
